

EVOLVE SERIES® DRINKING WATER SYSTEMS

Evolve®

BETTER SCIENCE. BRILLIANT WATER.®

ADVANCED SYSTEMS FOR HEALTHIER WATER.

Put an end to costly bottled water with an Evolve Series® reverse osmosis (RO) drinking water system in your home. These advanced systems are designed to deliver the clean, clear, fresh water that your family deserves.

Using a series of highly effective filters, Evolve drinking water systems improve your water's taste, smell and appearance by reducing unwanted particles and contaminants from your water. Ultimately, that means it will be healthier for your household.

Evolve drinking water systems are the convenient, affordable, environmentally friendly solution to better water right from your kitchen faucet.

CLEAR FLO® IMPURITIES DON'T STAND A CHANCE.

Reduce the impurities in your drinking water that concern the health of your family with Evolve Clear Flo drinking water systems. These systems are designed to deliver up to 100 gallons of healthier, fresher water to your faucet every day.

From high levels of heavy metals (including aluminum, copper, zinc, etc.) to chlorine and large suspended particles, Clear Flo RO drinking water systems filter water all the way down to the molecular level. Your family can be assured only the best water makes it through the filters to your tap.

ULTROWATER® DELIVERING FRESHER WATER FOR YOUR FAMILY.

UltraWater drinking water systems deliver convenient, healthier water right to your faucet. With easy to change cartridges and faucet options to match any kitchen color and décor, UltraWater systems are the simple solution for healthy drinking water.

In addition to an NSF/ANSI Standard 58 certification for reducing contaminants* including lead, arsenic, copper, cyst and chromium, these systems help improve the smell, taste and appearance of your water. The UltraWater systems are designed to provide cleaner, fresher water when you need it.

DRINKING WATER SYSTEMS: CLEAR DRINKING WATER STRAIGHT FROM THE TAP.

Every component, every feature, every innovation of Evolve drinking water systems has been designed to bring the highest quality, most efficient water to you and your family.

* For specific percentages of contaminant reduction, consult the performance data sheet. This system shall only be used for Arsenic V reduction on chlorinated water supplies containing detectable residual free chlorine at the system inlet. Systems certified for cyst reduction may be used on disinfected water that may contain filterable cysts.

Reverse osmosis technology is typically known to substantially reduce the total dissolved solids in a water supply from 95 to 99%. Results will vary based on feed water quality and temperature. Impurities are not necessarily in your water.

Do not use these systems with water that is microbiologically unsafe or of unknown quality, without adequate disinfection before or after the system.

Built in
the U.S.A.

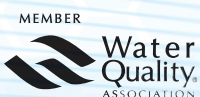

ENSURING THE BETTER WATER THAT YOUR HOUSEHOLD DESERVES.

Evolve Series® RO drinking water systems are part of the Evolve water treatment product line, and are built in the USA. Evolve is a trusted name in the water treatment industry and is dedicated to advancing the science and art of innovative water treatment solutions that help create brilliant water for your home.

As an Evolve dealer, we are part of a select group of certified dealers who exclusively sell and service Evolve Series systems. You can rest assured that your Evolve system will deliver the highest quality water for your family, and we'll provide extraordinary customer service.

We have proven water treatment industry expertise and received extensive product and service training specific to Evolve Series systems.
